## SECURITY—SERVICE

**SECURITY.** Our first consideration in the interest of our depositors has been security—that is why we have established such a large Capital and Surplus—\$100,000.00, which carries with it a further legal responsibility of \$50,000.00 covering stockholders liability making in all a total responsibility upon our part of \$150,000.00.

**SAFETY.** Our next consideration is service. With an adequate office force, with modern equipment, with a disposition to please and an ability to dispatch all banking matters entrusted to us promptly and satisfactorily, we confidently lay claim to a service that cannot be excelled within the limitations of safe and prudent banking.
